---

PROFESSIONAL EXPERIENCE

Freelance   **Mar 2023 - Present**
Video Editor
- Edited promotional videos for small businesses and social media influencers.
- Collaborated with clients to create engaging video content that aligns with their brand.
- Utilized Adobe Premiere Pro and After Effects to enhance video quality and add special effects.
- Managed multiple projects with tight deadlines, ensuring high-quality output.

Freelance   **Jun 2022 - Present**
Photo Editor
- Designed and edited YouTube thumbnails to enhance video click-through rates and viewer engagement.
- Created custom graphic designs for various digital platforms, including social media and websites.
- Collaborated with clients to understand their vision and deliver high-quality visual content.
- Utilized software such as Adobe Photoshop, Illustrator, and Canva to produce professional-grade designs.
- Managed multiple projects simultaneously, ensuring timely delivery and client satisfaction.

PROJECTS

Bacola - A Full Stack e-Commerce Website
- Developed a comprehensive e-commerce platform using HTML, Tailwind CSS, JavaScript, React.js, and Locomotive.js. Integrated Firebase for backend services and Stripe for secure payment processing. Enhanced user experience with responsive design and seamless navigation, resulting in increased user engagement and sales.

Portfolio Website
- Developed a personal portfolio website using HTML and CSS. Showcased projects, skills, and achievements with a clean and responsive design. Implemented intuitive navigation and visually appealing layouts to enhance user experience and engagement. The website serves as a professional online presence, highlighting my expertise in web development.

Browser Games
- I created a collection of browser games using HTML, CSS, and JavaScript. These games highlight my web development skills and creativity, offering players engaging and interactive experiences. Each game is designed with unique challenges and fun elements, making them enjoyable for users of all ages. The repository is open source for anyone to add/modify new/existing games.
